

17th Annual

PEGS BOSTON

VIRTUAL CONFERENCE & EXPO

MAY 11-13, 2021 | EDT

CONFERENCE AT-A-GLANCE

2021 PROGRAMS

ENGINEERING

ONCOLOGY

BISPECIFIC ANTIBODIES

IMMUNOTHERAPY

EXPRESSION

ANALYTICAL

IMMUNOGENICITY

COVID INTERVENTIONS

NEW

SHORT COURSES

TUESDAY-WEDNESDAY AM (MAY 11-12)

Display of Biologics

Antibodies for Cancer Therapy

Advancing Bispecific Antibodies and Combination Therapy to the Clinic

Improving Immunotherapy Efficacy and Safety

Difficult-to-Express Proteins

Characterization for Novel Biotherapeutics

Training SEMINARS Introduction to Immunogenicity

Therapeutic Interventions for COVID-19

SC1: CAR T Cell Therapy From A-Z

SC2: Introduction to Gene Therapy Products Manufacturing and Analytics

WEDNESDAY PM-THURSDAY (MAY 12-13)

Engineering Antibodies

Driving Clinical Success in Antibody-Drug Conjugates

Engineering Bispecific Antibodies

CAR Ts, TCRs and TILs

Optimizing Protein Expression

Biophysical Methods

Immunogenicity Assessment and Management

Accelerating Vaccine Development for COVID-19

SC3: Developability of Bispecific Antibodies: Formats and Applications
